ADDENDUM TO THE 1993 ANNUAL REPORT

INDEPENDENT AUDITORS REPORT

1993

MEMORANDUM OF COMMENTS AND RECOMMENDATIONS

AND

REPORT ON INTERNAL CONTROL STRUCTURE

Vachon, Clukay & Co., PC

Certified Public Accountants

45 Market Street
Manchester, New Hampshire 03101

February 8, 1994

Town Council
Town of Bedford, New Hampshire

We have audited the general purpose financial statements of the Town of Bedford, New Hampshire for the year ended December 31, 1993, and have issued our report thereon dated February 8, 1994.

In planning and performing our audit of the general purpose financial statements of the Town of Bedford, New Hampshire, for the year ended December 31, 1993, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control structure.

The management of the Town of Bedford, New Hampshire, is responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purpose of this report, we have classified the significant internal control structure policies and procedures in the following categories.

- Budget
- Cash and investments
- Revenue and receivables
- Expenditures for goods and services
and accounts payable
- Payroll and related liabilities
- Debt and debt service expenditures

For all of the internal control structure categories listed above, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation, and we assessed control risk.

We noted certain matters involving the internal control structure and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the Town's ability to record, process, summarize, and report financial data consistent with the assertions of Town officials in the general purpose financial statements.

RECONCILIATION OF GENERAL LEDGER TO SUPPORTING RECORDS

Observation

The Finance Office reconciles cash receipts of the Treasurer and Tax Collector to the general ledger on a monthly basis, identifying differences between reported amounts, however not all differences are corrected. Also, during the course of our audit we noted that month-end cash and taxes receivable balances are not reconciled to the general ledger control balances. The principal cause of unreconciled differences are due to mispostings of overpayments, cash receipts and a payroll program malfunction. In addition, we noted instances of the lack of timely recording of deposits. In one instance, we observed that the Finance Office recorded a deposit of an anticipated transfer from escrow funds which had not occurred which also created a unreconciled difference.

Implication

As a result, several adjusting entries were required to reconcile the Tax Collector's uncollected taxes receivable balances to the general ledger during the audit. In addition, general ledger cash balances for operating and payroll accounts required immaterial adjustments to correct recorded amounts to actual cash balances at year end.

Recommendation

We recommend that the month-end Treasurer's cash balances be reconciled to the general ledger amounts. If any differences exist, they should be investigated and corrected in a timely fashion. This will ensure that accurate balances are brought forward to the following month. The reconciled balance of the payroll account should be reconciled to the general ledger and any balance in the "payroll clearing" account should be investigated and corrected.

Taxes receivable detailed records maintained by the Tax Collector should also be reconciled to the general ledger by the Finance Office to ensure that all warrants, abatements, refunds or overpayments are properly recorded. The implementation of these procedures will enable the management to continue to receive appropriate financial data.

Town Response

We have worked, and will continue to work, to improve monthly reconciliation of general ledger control balances with the records of the Treasurer and Tax Collector. The amount of property taxes receivable for 1993 was reconciled to the Tax Collector's records at year end, and we will combine monthly cash receipts reconciliation with cash disbursements reconciliations to the records of the Treasurer also on a monthly basis in order to identify and/or eliminate any remaining immaterial differences.

A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions and accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above. However, we do not believe the reportable condition described above is a material weakness.

We also noted other matters involving the internal control structure and its operation that we have reported to the Town Council and the management of the Town of Bedford, New Hampshire, in a separate letter dated February 8, 1994.

This report is intended for the information of the Town Council and the management of the Town of Bedford, New Hampshire. However, this report is a matter of public record and its distribution is not limited.

February 8, 1994

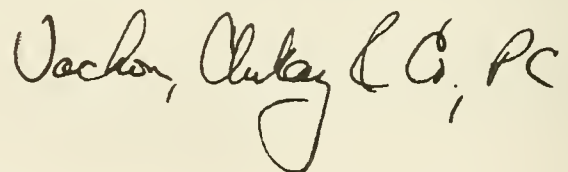

Town Council
Town of Bedford, New Hampshire

In planning and performing our audit of the general purpose financial statements of the Town of Bedford, New Hampshire for the year ended December 31, 1993, we considered the Town's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit we became aware of several matters that are opportunities for strengthening internal controls and operating efficiency. The memorandum that accompanies this letter summarizes our comments and suggestions regarding those matters. We previously reported on the Town's internal control structure in our report dated February 8, 1994. This letter does not affect that report or our report on the general purpose financial statements dated February 8, 1994.

We are available to discuss these comments and suggestions in detail should you so desire.

Sincerely,

A handwritten signature in cursive script that reads "Vachon, Clukay & Co., PC". The signature is written in dark ink and is positioned below the "Sincerely," text.

WITHHOLDING ACCOUNTS

As in previous audits, we continue to observe that year end balances in the various payroll withholding general ledger accounts were not reconciled to subsidiary records. Consequently, adjusting entries were required to adjust the various balances for mispostings, and over/under accruals of benefits. While the differences are immaterial, we recommend that Town personnel continue to monitor these withholding accounts on a monthly basis to determine that the month-end balance properly reflects the liability of the Town to ensure that differences do not become significant in the future.

Town Response

Accrual accounts are monitored on a monthly basis as part of the period-end closing process. To the extent that there are identifiable errors in these accounts, corrections are made. Many of the immaterial differences are part of the functioning of the payroll system and, so long as we identify them as part of this normal operation, do not require active intervention on our part.

TOWN OF BEDFORD
BUDGETARY TOWN MEETING
MARCH 11, 1993 - MCKELVIE SCHOOL

The Bedford Budgetary Town Meeting was held on Thursday, March 11, 1993 at the McKelvie School. Town Moderator Earl Legacy opened the meeting at 7 PM, introduced those on the stage and led the Pledge of Allegiance. Present were Councilors Paul Anderson, Richard Como, James Dias, Paul Goldberg, Edward Moran, Richard Stonner and Eugene Van Loan, Jr. Also present was Artherline Robersen, Town Manager; Anthony Plante, Finance Director; and Edith Schmidtchen, Town Clerk/Tax Collector. There were approximately 650 people in attendance.

Richard Aldrich, Commander of VFW Post 8401, presented Certificates of Appreciation to Fire Fighter Marc Beaulieu, Fire Captain Paul Anderson, and Police Patrolman Michael Bothwick.

Mr. Legacy reviewed the ground rules for the meeting.

Council Chairman Richard Stonner apprised the meeting of the tragedy of Officer Roland Latulippe, who was hit by a car while snowblowing his driveway. Police Chief, David Bailey, said a trust account has been set up to help defray his expenses. Donations may be sent to the Roland Latulippe Fund, c/o Bedford Police Department, 18 North Amherst Road, Bedford, NH.

Dan Murphy, President of the Bedford Fireman's Association said they pledged \$1,000 to Roland.

Mr. Stonner said Roland epitomizes the friendliness of Bedford. The Town Council pledged \$1,500, \$700 from the special Council fund and each Councilor and the Town Manager added \$100. He asked for a moment of silence for everyone to reflect on

the smile and the wave.

Mr. Stonner read a prepared statement on the budget. (Copy attached).

Mr. Legacy indicated that Articles 1-4 on the warrant were voted on the ballot on March 9, 1993.

ARTICLE 5. To see if the Town will vote to raise and appropriate a sum not to exceed two million dollars (\$2,000,000.00) plus interest earned on invested funds, for the purpose of constructing a public safety complex, such sum to be raised by the issuance of serial bonds or notes under and in compliance with the Municipal Finance Act (RSA Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other action as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Bedford, and pass any vote relating thereto. This article requires a two-thirds ballot vote.

Mr. Dias moved Article 5; motion seconded;

Roy Stewart, 19 Hickory Lane, moved to modify/amend the motion by adding after the word construction "acquiring and/or developing facilities for use as a safety complex." Amendment seconded.

Mr. Stewart spoke to the article indicating the way it is written, limits the Council from looking at other options, and if something is available, it may be able to be bought for less than something new.

Jack Deady, 49 Old Farm Road, feels the

consideration of other locations was addressed, and he cannot think of any other place that would fill the bill, and he questioned the purpose of the amendment.

Mr. Stonner said the Council supports the amendment because it would give them flexibility if an existing building became available.

Paul MacEwen, Jr., asked if this price is for buying or building on leased land. Mr. Stonner said it includes acquisition, construction and outfitting.

Vote on the amendment to add after the word construction "acquiring and/or developing facilities for use as a safety complex" passed.

Bill Brennan, Tavistock Drive, asked where the two million came from. Mr. Stonner said from a group of contractors who specialize in this type of construction and submitted proposals. Mr. Brennan asked if plans and specifications were drawn up. Mr. Stonner said we went through the process of advertising, and a series of plans were presented at no expense to the Town. Mr. Brennan asked about land for it. Mr. Stonner said there are sites under consideration. Mr. Brennan asked if the two million includes the cost of the land. Mr. Stonner said yes.

Hal Eckman, 11 Cobbler Lane, said he is in the construction business, and his concern is you are asking to borrow two million to build a building that you don't know exactly what it is, where it will be located, and what materials it will be built of. He supports the notion of providing a new complex, but can't support the article until the Town gives us a specific plan with specific price and location. Then the taxpayers can make an informed decision.

Mr. Stonner said we had two ways to approach it. We could have spent \$20,000 to \$25,000 for an architect/engineer to design the building, or ask contractors to come in at their expense with a design. We have a cap of two million, and it has to come in under

that. If we cannot do it for that, it does not get built. We know it can be built for that. We have spent less than \$300 to date.

Gus Garceau, North Amherst Road, made a motion to the amendment to include the purchase of land in that cost; motion seconded.

Mr. Moran does not want to preclude the purchase of an existing building. Mr. Stonner said it was worded like this on advice of bond counsel who felt that the acquisition of land would be incidental to the project and would therefore be included.

Anne Hoffman, 64 Cider Mill Road, said the amendment confuses her. If someone wants to donate land, she asked if the current wording would put legal limits on being able to use donated land.

Kim Frederick, 174 Meetinghouse Road suggested using "total cost of the project."

Vote on amendment to include the purchase of land failed.

Ms. Frederick amended the motion to add "all costs related to the constructing, acquiring and developing a facility for use as a public safety complex; motion seconded.

Mr. Garceau asked for a division vote on his amendment. After the yes votes stood, the Moderator ruled it as a no vote.

Vote on the amendment to add "all costs related to the constructing, acquiring and developing a facility for use as a public safety complex" passed.

Mr. Legacy announced a secret ballot vote would be held on Article 5 as follows:

To see if the Town will vote to raise and appropriate a sum not to exceed two million dollars (\$2,000,000.00) plus interest earned on invested funds, for the purpose of all costs related to the constructing, acquiring and developing a facility for use as a public safety complex, such sum to be

raised by the issuance of serial bonds or notes under and in compliance with the Municipal Finance Act (RSA Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other action as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Bedford, and pass any vote relating thereto.

Shep Melnick, 58 Bedford Center Road, said there is no doubt a new facility is needed, but if this is approved, the Council will face another decision, and since this is the only forum, he wants to raise the issues about the location. He said the Town Council did not follow procedures by notifying the abutters. The first site was taken by the State for wetland mitigation. Then they came up with the land on 101 next to HABS. He lives next to this. He said one problem is this area is wetland, and there is some question if there is enough dry land. The second problem is traffic with police and fire vehicles getting in and out of there. He feels this needs to be studied very thoroughly. This land is zoned commercial and is in the Historic District. It is a very narrow woodland that will be cut down. He said the Master Plan encourages preservation of green space, and he feels this is contrary to the Master Plan.

Mr. Stonner apologized for not notifying the abutters even though it was not necessary. This was used as a possible site for the contractors to bid on. He said they will continue to look at every available piece of land near the center. Mr. Stonner said this is not a done deal, but it is a possible site. If we do not have to use that piece of land we will not.

Bill Brennan said he is confused. There is no question they need a new building. He has a hard time figuring out what they are trying to do without a specific site. He asked what are the other sites. Mr. Stonner said we cannot name them because the price will

double or triple. He said if this is approved, there is a process that has to be followed, i.e., Planning Board, Historic District Commission and Conservation Commission.

Peter Waligora, 11 Colleny Drive, said we need the complex. There is a cost involved in not knowing what you want. He would rather spend \$25,000 and know what we are doing. He asked if that number is going to meet the needs. He would like to know what the needs are. He needs more information.

Chief Bailey said we have been working on this since 1979. We sent out RFP's, gave a list of what we want in a building, and 9 builders sent proposals, all under two million. They then had a presentation by each one, and all nine said that building could go on that site or on a similar site.

Mr. Stonner said we took a worst case scenario. We have fixed specifications and went to other towns who built similar facilities.

Mr. Stewart moved the question; motion seconded; vote on motion passed.

The polls for the secret ballot vote on Article 5 opened at 8 PM.

ARTICLE 6. To see if the Town will vote to raise and appropriate a sum not to exceed two million two hundred thousand dollars (\$2,200,000.00) plus interest earned on invested funds, for the purpose of constructing a public library, such sum to be raised by the issuance of serial bonds or notes under and in compliance with the Municipal Finance Act (RSA Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other action as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Bedford, and pass any vote relating thereto. This article requires a two-thirds ballot vote.

Mr. Stonner made a motion to accept Article 6; motion seconded;

Mr. Stonner said this is not a new project. It has been addressed over the years. An assessment needs study was done, and the Trustees have pledged to raise half a million dollars privately.

Sue Holstein, 33 Ministerial Branch, Library Trustee, read a statement in support of the Library (copy attached).

Jack Deady, Old Farm Road, spoke in support of the project, and said the building is presently heated with electric heat and has no security so books are constantly missing. He feels a new library is necessary and very desirable.

Eugene Chapdelaine, Sandstone Drive, said money does not grow on trees and does not feel we can afford it.

Doug Richards, 1 Mayflower Drive, said if the articles pass we will have two unutilized buildings. Could they be used as a library annex.

Frances Wiggin, Library Director, thinks the only thing to do with the Police Station is to rip it down. They have investigated the fire station, and to split the library on two sides of a busy road would be fool hardy. It would not address the inaccessibility to so many people. Mrs. Wiggin has been Library Director for 35 years, and her goal is to bring the best possible library service to the citizens. The weight of thousands of books has made the library unsafe. They need a building that is energy efficient, safe and accessible to everyone.

Bill Brennan, thinks it is time to a second step forward toward the 21st Century and expand the library.

Jack Deady, said it would be 15¢ per thousand on the tax rate or \$2.50 per month for an average household.

Mr. Stonner explained we will be making the final payment on the Town Maintenance Facility in 1994. If we approve both bonds and phase selling the bonds, the first payment would not be made until after the Maintenance Facility is paid. We are not adding debt on debt. When you take out the money being paid for the Maintenance Facility, taxes would increase \$25 per year to cover both on a \$150,000 home.

The Moderator announced the polls closed at 9 PM on Article 5.

Mr. Stewart moved the question; motion seconded; vote on motion passed.

The polls opened at 9:02 PM on Article 6.

The results of Article 5 were announced with 649 votes cast, 433 required for two-thirds, yes votes 487, no votes 162, so Article 5 passed.

ARTICLE 7. To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray Town charges for the ensuing year.

Town General Fund	\$5,551,952
Sewer Fund	466,629
Police Contract Work Fund	74,609
Solid Waste Disposal Fund	245,897
Summer Day Camp Fund	38,610

Total Appropriations
\$6,377,697

Mr. Stonner moved the budget at \$6,377,697 and the previous warrant articles; motion seconded and passed.

Mr. Stonner amended the total by \$7,186 to \$6,384,883 plus the preceding warrant articles.

Mr. Stonner explained after the last public hearing on the budget, this was not added to the budget.

The Moderator reviewed each function of the budget.

400 - Boards & Commissions - \$44,821

410 - Agencies & Activities - \$105,048

420 - Administration - \$660,831

430 - Police - \$1,451,719

440 - Fire - \$822,208

450 - Public Works - \$1,620,687

460 - Health & Welfare - \$48,176

470 - Recreation - \$217,530

Paul MacEwen, Jr. asked if the percentage of money from developers going into the Recreation Department offsets expenses? Mr. Stonner said that is for new recreation facilities. In the past budget, money was given to the Heritage Trail.

480 - Library - \$306,968

490 - Fixed & Other Charges - \$281,150

Walter Van Anglen, Horizon Drive, asked if the Town had to increase our insurance when

they accepted the land along the river. Mr. Stonner said we do not have possession of the land until the State finishes construction.

Mr. Legacy announced the polls closed on Article 6 at 10:02 PM.

Bonnie Venn, Pilgrim Drive, asked what is the compensation adjustment. Mr. Stonner said that is raises for Town employees at an average of 3% based on merit/performance evaluation.

Other Funds - \$825,745

Vote on the total budget of \$6,384,883 passed.

Mr. Stewart asked for a round of applause for the Town Council/Town Manager who have kept taxes almost level.

Mr. Stonner thanked Paul Anderson who filled in on the Town Council.

A motion was made, seconded and passed to adjourn at 9:57 PM.

Mr. Legacy announced the vote on the Library with 639 votes cast, 429 were needed for 2/3 approval, the yes votes were 372, no votes were 267, so the article failed.

Councilors Van Loan, Jr., Stonner, and Como at the fire engine sporting the Hilltop combined logos.

TOWN COUNCIL

Richard Stonner, Chairman

1994 will be a year of change for Bedford. As a result of the *unfunded* state mandate, the landfill must be closed by the end of the year. The closing will result in the building of a transfer station and hauling our solid waste to a disposal facility.

We face the expense of building the new facility plus the costs of hauling and disposal. In addition, we are mandated by the state to begin the capping of the landfill, a process that could cost up to two million dollars.

It was quite a challenge, but we have kept the tax impact minimal. As a result, we will still have the lowest municipal tax rate in the area and will continue to pursue a favorable tax structure while providing excellent Town services and protection.

Last year you approved our proposal for a new safety center which should be open this summer. We purchased an existing office building on Constitution Drive and are rebuilding it to serve both the police and fire departments.

At this year's Town Meeting, the Library Trustees will be asking for bonding approval for a new Library. They feel the proposed 19,000 square foot library would serve the present and future needs of Bedford as we move towards the 21st Century.

I began by saying 1994 would be a year of change, and that is true. But some things never change, and the dedication and hard work of volunteers and town employees must again be recognized. And how about those Bedford Little League All-Stars, 11 and 12-year old Bedford baseball players who took us on the ride of our lives. State champions, Eastern Region champions and defeated only by the World champions, the players, coaches and their families have given Bedford

something none of us will ever forget. Our imagination and pride will always follow these young ballplayers wherever they go. Good luck to all!

TOWN MANAGER

Artie Robersen

It was a year of planning. We were constantly challenged to modify plans for 1993 due to the continual intrusion of unexpected emergencies. We also tried to lay a strong foundation for growth and the need for the Town to meet new growth as the economy recovers from the last five years of recession.

The year greeted us with constant snow and ice storms which quickly destroyed the budget for snow removal. They also required many unplanned call fire hours to deal with accidents. While the "great hurricane" never met its potential, emergency plans for it ate into the Police Department budget. By April, we were revisiting the entire budget in order to meet the year's needs.

The trend continued when we discovered additional lead paint in the Old Town Hall needing removal, and by summer, it was evident that the need for welfare assistance would far exceed expectations. The pool pumps were damaged during installation and the amount of ledge encountered for the Meadowcrest rebuilding required unanticipated blasting. The underground fuel storage tanks were planned for removal, but we were unprepared for the mandate to do the ones at the maintenance facility in order to qualify for any reimbursement.

But, with the cooperation of everyone, we reached the end of the year within the dollars allocated. It meant deferring a number of projects, and departments sharing their

resources, but it was a good test of each department's willingness to pitch in and help each other.

And, while it often seemed that the immediate crises were paramount, we planned for tomorrow. The property on Constitution was purchased, and much effort has gone into assuring the addition and renovations will meet the Town's safety needs for many years. An agreement with the Teamsters for the Public Works employees included a drug testing program which will protect the Town from the ever increasing allegations in a society orientated towards legal remedy to problems. Fire Department employees planned and designed a tanker truck from a used chassis which not only saved more than \$100,000, but pumps at speeds which are responsive to the quickly spreading fires fueled by the variety of inflammables found in today's household.

Performance Zoning was implemented, making Bedford a pioneer in such innovative and protective approaches to commercial zoning. Hilltop was the first New Hampshire joint municipal fire district, as well as a model experiment for the U.S. armed service bases. Public Works employees won the Salt Safety Institute Award for their storage and usage procedures. The Heritage Trail Committee opened a full mile of what is considered one of the premier portions of the trail in the State on the Merrimack River.

It was an exciting and productive year and it will not soon be forgotten either for its problems or rewards.

Scott Wiggin is congratulated by Fire Chief Bob Fabich and Town Manager Artie Robersen on his appointment to Operations Captain for the Fire Department.

BUILDING DEPARTMENT

Department Head: Merritt J. Peasley

The Town has continued to grow residentially over the past twelve months, while commercial activity has increased towards the end of the year.

Commercial construction appears to be on an upward swing, assuming the current site plans being reviewed by the Planning Board are developed during 1994. Some of these developments include a 20,000 square foot retail building at the Manchester-Bedford line, a VIP Auto Store at the intersection of Palomino Lane and South River Road, and a Wal Mart on Colby Court. During 1993 Martin's House of Cloth relocated to Ridgewood Road, Agway occupied their Route 101 building, and the United States Marines moved from Manchester to a vacant building on Constitution Drive. In November a building permit was issued for a 20,000 square foot office building on Commerce Drive for Arcadia Insurance. The building is scheduled to be occupied in March, 1994.

As in past Annual reports the data below shows how growth has continued through new housing starts and how structures being built are occupied, rather than sitting vacant, as in the past.

	Building Permits	Certificates
1988	61	108
1989	57	64
1990	53	77
1991	87	83
1992	117	104
1993	142	124

This year the Powder Hill Subdivision, located between Campbell Road and New Boston Road, has seen a majority of the residential construction.

ASSESSING DEPARTMENT

Robert Bradford, CNHA

During the past year a new Assessor has been hired by the Town. Bob Bradford, from Sanford, Maine is a certified New Hampshire Assessor. The Assessing Office hours remain the same: Monday-Friday 8:00am to 4:30pm and Wednesday's 8:00am to 7:30pm. The Assessor is available during these hours, except on Wednesday's from 11:30am to 7:30pm.

The total number of parcels in Bedford as of October 1, 1993 is 6,308. The continued construction growth of the Town has increased the total net valuation to \$ 1,205,672,715.

BOARD OF ADJUSTMENT

Chairman: Susan Tufts Moore

The Zoning Board of Adjustment (ZBA) meets on the third Tuesday of the month at 7:30 P.M. In 1993 the Board heard 30 applications for variances and appeals. Seven commercial and 12 residential variances were approved. Ten commercial and no residential requests were denied.

The Building Inspector/Zoning Administrator reviews all building applications and directs them to the proper board for disposition. Many of these applications require variances and are sent directly to the ZBA. The Board hears evidence for and against a variance, an appeal from an administrative decision, or an approval of a special exception. After hearing the evidence, the Board discusses the requests and votes in public session. Building Inspector/Zoning Administrator, Merritt Peasley, attends our meetings and, when possible, provides information to Board members regarding the requests.

When an applicant makes a presentation before the Board for a variance, the following five criteria must be addressed:

1. No diminution in value of surrounding properties would be suffered.
2. Granting the variance would be of benefit to the public.
3. Denial of the variance would result in unnecessary hardship to the owner seeking it.
4. By granting the variance, substantial justice would be done.
5. The use must not be contrary to the spirit of the ordinance.

It is important to remember that applicants not present at a meeting who wish to have someone speak for them must give written authorization for the representative.

Scheduled applicants listed on the Public Notice wishing a postponement must do so

within seven working days before the meeting and must pay for notification of abutters of the change, or the applicant will not be heard for six months. Anyone may appeal a Board ruling in writing within twenty days. The Board then has ten days to determine if it will grant a rehearing because of new evidence presented in the written request.

HEALTH DEPARTMENT

Health Officer: Gerard J. Vallee

The Health Department is responsible for public health in all food service establishments, nursing homes, preschools, foster homes, day care centers, and public kitchens in the Town.

The Health Officer inspects each of the following food service units twice a year; restaurants, supermarkets, convenience and grocery stores, retail mini-marts, wholesale food outlets, cafeterias, mobile and catering units, public kitchens in nursing homes and retirement units. Each is licensed annually providing that the State Health and Sanitation Code requirements (He-P 2300) and specifications are met without critical violations and an overall score of 70%.

The Health Officer also inspects day care units, preschools, such as kindergartens and nursery schools, and foster homes to insure that State requirements concerning the health care of younger children is met. Also, the Health Officer investigates any complaints pertaining to the food establishments licensed in Town. A report of each inspection is filed in the Health Office.

A genuine spirit of cooperation exists between the above establishments and the Health Office in maintaining the high standards of cleanliness, refrigeration, good storage and delivery. Since early 1991 the Town has been "Self Inspecting" as are the larger cities in the state.

VISITING NURSE ASSOCIATION

Sarah C. Hubbard, President

The VNA has been providing the residents of Bedford with a full range of home health services since 1965. The Board of Trustees and staff take this opportunity to reaffirm our commitment to excellence in health care, and to the provision of services designed to ensure that being cared for at home is safe, comfortable, convenient and cost-effective.

In June 1993, employees, members of the Board of Trustees, volunteers and local vendors pooled resources to organize our first Hospice Wine Tasting fundraiser. The outdoor garden festivities were held at the Bedford home of Dr. & Mrs. David Charlesworth where guests were introduced or reacquainted with the VNA Hospice Program which provides warm, supportive care to terminally ill individuals and their families in the comfort of their own home.

Several open houses held in October marked completion of the construction/renovation of the VNA Child Care Center, 435 South Main Street, Manchester. With the new 7,500 square foot addition, the Center is licensed to serve 229 children, ages six weeks to 13 years. On behalf of the Board of Trustees, staff, and families we serve, we would like to thank all who made our dream of meeting the overwhelming need for affordable, high quality child care a reality.

Home care and health services are provided through the following VNA affiliates:

Home Health & Hospice Services, Inc. is Medicare and Medicaid certified, providing intravenous and enteral therapies; skilled nursing care; physical, occupational and speech/language therapies; nutritional counseling and medical social services; certified home health aides; hospice care for the terminally ill; long-term care for the elderly and handicapped; and volunteers. A medical loan supply closet is also available.

Personal Services, Inc. provides private duty nurses, certified home health aides, homemakers, companions, personal care assistants, and child care in the home.

Community Services, Inc. provides free monthly immunization clinics as well as free blood pressure screenings. Watch your local newspaper for dates and locations. Foot care clinics are held monthly at 1850 Elm Street by appointment, and blood pressure checks are held weekdays from 1:30 - 4:00 pm. Occupational health programs are conducted on site. Parent-child health services include the Teenage Pregnancy Program, Parent-Baby (ad)Venture Program for children at risk of abuse and neglect, and the Child Care Connection for child care providers.

Child Care Center provides state-licensed child care and early education programs tailored to meet each child's need. Programs include Infant/Toddler (ages 6 weeks to 36 months); Preschool (ages 3-5); and Kindergarten (age 5). The Center also provides before and after school programs for children grades 1 through 6 with special full day programs during holidays or school closings. As needed, the VNA also offers families a continuum of coordinated health and social services, both directly from the VNA and through working arrangements with other community resources.

Town appropriations, grants, United Way allocations and donations are a vital part of the funds that help to defray the cost of unpaid services. Representatives of the Town of Bedford serving on the Board of Trustees are June Ata, Debra Z. Feins, Charles W. Grau, John Hession, Jacqueline Killgore, Edward Moran, and Eugene M. Van Loan, Jr.

Southern NH Planning Commission

Moni Sharma, Director

The Planning Commission has a wide range of services and resources available to help members deal with a variety of municipal issues. Technical assistance is provided by a professional staff whose expertise is, when necessary, supplemented by consultants selected for specialized skills or services. Each year, with the approval of your appointed representatives, the Commission staff designs and carries out programs of area-wide significance that are mandated under New Hampshire and federal laws or regulations, as well as local or site-specific projects which pertain more exclusively to your community.

Technical assistance is provided by staff at the request of your Planning Board, Conservation Commission, Town Council, and various municipal department heads. The Commission conducts planning studies and carries out projects that are of common interest and benefit to all member communities. It keeps your officials apprised of changes in planning and land use regulations, and offers training workshops for Planning and Zoning Board members on an annual basis.

Services performed for Bedford during 1993 include: 1) Co-sponsored the Municipal Law Lecture meetings attended by Bedford officials; 2) Six-hour training workshop to which Planning and Zoning Boards are invited to attend; 3) Staff prepared and forwarded to the Planning Board, hydric soils and wetland maps; 4) Conducted traffic counts at several locations; and 5) Provided the Town with a floppy disk containing 1990 US Census data.

Bedford's representatives to the Commission are: Eugene Van Loan, Jr., Edward P. Moran, Jr. and David J. Danielson (Executive Committee Member).

CONSERVATION COMMISSION

William Hallock, Chairman

The Conservation Commission has been charged with the responsibility of identifying those natural resources in Bedford which need to be protected, providing suitable amounts of open space and visual diversity for existing and future residents, and maintaining the availability and quality of existing and potential water supplies.

This year the Commission year has undertaken the project of developing a Master Plan for the future of Bedford to highlight those areas of Bedford where future conservation land would be beneficial to its growth and development. Currently with the Pulpit Rock Conservation area, the Heritage Trail, the Curit land, the Ash Bog and many other fine areas currently protected by Town ownership, or easements, we hope to identify other areas where land and resources should be protected for future generations.

The Pulpit Rock Subcommittee to the Conservation Commission this year had a very good work day at the Pulpit Rock Conservation Area to maintain existing walk ways, trails and wetland crossings. Their efforts to constantly maintain and improve this area are much appreciated. The Dredge and Fill Subcommittee is constantly reviewing applications to the State Wetlands Board to modify wetlands. Monthly site visits to review these applications are required with recommendations being offered to the full Commission and Wetlands Board.

Thanks to the exceptional efforts of the Bedford Land Trust, the Town of Bedford is in receipt of 10 acres of beautiful passive recreational land along the shore of the Merrimack River. This group of private citizens deserves a great deal of appreciation for their efforts not only in obtaining this land but also their efforts toward a townwide walkway system.

PLANNING BOARD

Gary Howard, Chairman

For the third year in a row, land development remained sluggish in Bedford. During the first six months of 1993, only one new commercial building of 8,640 square feet and 12 residential lots were finalized. Plans for a three-lot subdivision with a large retirement facility obtained conditional approval but were later withdrawn by the applicant.

On a more positive note, the Planning Board experienced a significant increase in applications in the third and fourth quarters. This sudden upsurge in proposals may be due to renewed confidence in the economy PLUS the zoning incentives of the newly adopted "Route 3 Performance Standards District". Between September and December, the Board approved 36,500 sq. ft. of new commercial/industrial buildings, and 110,000 sq. ft. are under consideration.

Final approval was granted for:

12 Subdivision Plans - 30 new residential lots
1 Lot Line Adjustment Plan
5 Site Plans - 48,408 sq. ft. new commercial industrial buildings or additions
5 Site Plans - 20,000 sq. ft. change-of-use commercial/industrial buildings
5 Home Occupation Permits
4 Improvement Plans - parking, recreation

Major developments reviewed included:

Baldwin Farms Subdivisions - 9 new house lots approved in 2 phases
V.I.P. Auto Parts - 16,500 sq. ft. new commercial building
Arcadia Insurance - 20,000 sq. ft. new commercial building
Enviro-Tote - 10,480 sq. ft. industrial re-use site
Eastern N.E. Hydraulics - 8,400 sq. ft. re-use site.

Your Planning Board is dedicated to the promotion of quality development which will be of lasting value,

both economically and aesthetically, for all of the property owners and residents of Bedford. Towards this end, we have been honored to serve the Town of Bedford in 1993. Members of the Planning Board are:

Gary Howard - Chair; David Danielson - Vice Chair; Thomas Cassese - Secretary; Paul Goldberg - Town Council; Artie Robersen - Town Manager; Edward Kelly - Public Works Director; M. Edward Matta; John Jacobson; and Paul Drahnak. Alternates are: Raymond Kiestlinger, Roger Hawk and Steve Rousseau. Staff liaison is Planning Director Karen White.

SUPERVISORS OF THE CHECKLIST

Betty Folsom, Chairman; Beatrice Miller and Doris Spurway.

As of September 7, 1993 the Bedford voting list records 2571 Democrats, 5171 Republicans, 1934 Independents, and 62 Libertarians for a total of 9738 registered voters.

The Supervisors held four sessions for registration, corrections and/or party change; three school open house registrations; one all-day voting session for school and town elections; one town budgetary meeting; two school budgetary sessions, and one special school meeting, a total of 13 sessions.

All official sessions are posted at the Town Office, Library and published in local newspapers. Residents may also register or change their party at the Town Office during regular hours. Proof of age and residency are required. The Supervisors wish to thank Edith Schmidtchen, Town Clerk and her staff for handling the majority of the registrations.

PLANNING DEPARTMENT

Director: Karen White, AICP

New federal regulations and a sudden upsurge in economic development created unexpected challenges for the Town Planner during 1993. In addition to the projects targeted for implementation by the Town Council, the Planning Director responded to a variety of other demands.

Codification of All Municipal Ordinances into a single organized document was designated as top priority by the Town Council. This project involved identifying and collecting all town ordinances and designing a standard format for publication and maintenance. Annotations of changes in each ordinance and a comprehensive cross-referenced index have been structured into the new compilation. This publication will improve distribution of information and coordinate enforcement of local regulations.

Education and Assistance with the new Performance Zoning Standards has been effective in attracting new commercial/industrial development to South River Road. After adoption of this innovative zoning ordinance by the voters last March, the Planning Director has presented numerous educational seminars to real estate agencies. Since August, six plans have been submitted for review totaling 146,000 square feet.

Highway Improvement Funding has become a new planning arena since Congress adopted the federal Intermodal Surface Transportation Efficiency Act (ISTEA).

Bedford's Planning Director joined the Transportation Advisory Committee of Southern NH Planning Commission. This committee makes recommendations on all future funding for regional highway projects, such as the Rt. 101/Rt. 114 intersection, the Wallace Road intersection, and an "airport access highway".

A \$113,000 "transportation enhancement" grant, submitted by the Planning Department, was awarded to the Town for construction of seven bridges on the Heritage Trail. This grant is an example of new sources of federal funding which have become available for "alternative transportation" and "air quality improvement". A long-range Hike and Bike Plan, created by the Bedford Land Trust, has been submitted for future funding.

Water and air quality standards imposed by the federal Environmental Protection Agency are making a dramatic impact on plan review for new and existing sites. Over five years, the EPA has mandated all wells serving more than 25 persons per day to do extensive water tests. Businesses with more than 100 employees will need to reduce vehicle trips to the workplace. These regulations pose new challenges for development.

Comprehensive revision of all Planning Board regulations has been an ongoing task during 1993. The Planning Department completed a six-year update of the Planning Board's Rules of Procedure, which was adopted in July. Total recodification of the 1973 Bedford Subdivision Regulations is currently being prepared.

Town employees don their little league shirts to spur on the championship team of 1993.

Finance & Personnel Department

Anthony T. Plante, Director

Teamwork. Many of us thought we knew what it was, though few of us actually practiced it; at least, not any more than we had to. For the last two years, the departments and department heads have made sincere efforts, and much progress in achieving a real and productive culture of teamwork. We have all made it our business to learn and understand more about the functions of the other departments, and their importance to the overall mission of the Town.

The Finance Department has been a major beneficiary of this team spirit. Only by gaining the cooperation and understanding of other departments are we able to bring the benefits of professional financial administration to the Town. In 1993, I saw greater appreciation and understanding of our role in assuring the responsible and accountable use of public funds on the part of other department heads.

There were other challenges during the past year. Fortunately, though, the cash flow problems many communities have faced were not among them. It would be nice to take credit for this, but it is due to solid revenue and tax collection performance. Nonetheless, we continue to monitor the Town's fiscal pulse to detect any early warning signs of any serious cash or budget problems.

We are sure to have as many challenges in 1994 as 1993. Budgets, taxes, bond sales, cash management, banking and investment, employee benefits, information systems, new personnel laws and regulations, and developing more efficiencies to help us save money or use the funds entrusted to us more effectively, will certainly keep us busy in 1994.

I'm looking forward to it.

Economic Development Commission

David J. Danielson, Chairman

The Commission opened its second year with a reception for members of Bedford's business community. At no cost to the taxpayers, it was invaluable in presenting details about assistance available to them from state and local agencies, and opening a dialogue between key players in the local economy.

We also hosted representatives from the state economic development agency who are among the first to meet businesses considering a New Hampshire site. We briefed them on the Town's economic and financial status, showcased the infrastructure improvements the Town has made, and visited Route 3 and the Performance Zone to view the area and available properties.

The Business Visitation Program was begun, based on a successful model developed by the state, to promote productive communication with local businesses, refer them to the resources they need, and understand their concerns to help retain and attract business.

The Council gave us the go-ahead to apply for an economic development grant, which will allow us to offer more services and resources for existing business expansion and improvements, as well as businesses making the move to Bedford.

We welcome your input as we help develop Bedford's economic and tax base. If you have an idea, or know of a business that could use some help, or is looking to relocate or expand, please contact the Town Manager or Finance Director.

Other members of the Commission are Bob Brooks, Vice-chairman; Eugene Van Loan, Council Liaison; Mike Burns; Richard Gregor; John J. Sullivan, Jr.; Brad Thomas; Bill Robersen; Kevin Keyes; and David Hershey. Our staff liaison is Tony Plante.

PARKS & RECREATION COMMISSION

Scot Pollock, Chairman

Throughout 1993, the Commission met each month in the Town Offices, or, during the summer, at the Pool. Through the efforts of Brian Ross and many volunteers, the growth in programs was substantial. Once again, the Camp Passaconaway summer program was filled to capacity allowing this self-funded program to serve over 700 Bedford children. With its popularity growing, it is expected that 1994 numbers will be larger.

With sponsorship from Prudential HABS Realtors, the Commission again brought the Family Cultural series to Bedford in addition to the first Talent Night. On average, over 150 families took advantage of the programs.

The challenge this past year was again the management and maintenance of our Town fields and pool. The record heat wave of the summer saw record numbers of residents at the pool. Youth and adult sport organizations had enrollments surpassing prior years. The continued increase in demand on our facilities is a reflection of a lot of hard work from the Parks and Recreation Director, volunteers and youth organizations. This affords residents many opportunities to participate in a wide variety of activities.

This spring, the Commission is sponsoring a Spring Clean Up Day. With the help of volunteers and community groups, we hope to focus on the town fields and pool areas located on Nashua and County Road and give this area a facelift by removing brush, trimming trees and repairing stone walls.

In closing, I would be remiss not to thank our Parks and Recreation Director and Commissioners who served this year as well as the service organizations, Little League, Babe Ruth League, and Soccer League. Their continued support and devotion contribute to making Bedford a desirable place to live, work and raise a family.

HISTORIC DISTRICT COMMISSION

Shep Melnick, Chairman

In 1993, the Historic District Commission reviewed 11 commercial and 6 residential applications. In all but one instance the Commission approved the proposed project. The Commission has tried to work with applicants to arrive at a mutually satisfactory agreement.

During the year the Commission also began a comprehensive review of its rules and regulations. With the assistance of Town Planner, Karen White, we have examined the guidelines employed by other Historic District Commissions in the state. Our goals are to gather more information on architecture and landscaping within the Historic District and to provide applicants with more specific guidance on what is allowable.

Paramedic Mark Klose received congratulations from Town Council Chairman Dick Stonner on the EMT of the Year award.

HERITAGE TRAIL

Co-Chairs: Lynn Willscher & Bill Robersen

The Heritage Trail Committee had an active and productive year. After the heavy snow-falls, the trail was reopened on May 29th. A workday was held prior to reopening when crushed rock was spread to prevent erosion, post and rail fencing was put in place, seedlings were planted, poison ivy was sprayed, and additional trail signs were posted.

During the summer, six park benches, five built by John Pappas, were placed to provide rest and views for walkers. Picnic tables, donated by Newick's Restaurant, the Verville family, and Bedford Boy Scouts, were put in Overlook Park. The first of two large signs, carved and painted on a solid redwood panel, was hung at the Moore's Crossing Road entrance. The logo was designed by Bedford artist Tracey Carrier. More than 70 bird and bat houses were donated and installed by Bedford resident Paul Finn.

A second workday was held prior to the first annual BYOP (Bring Your Own Picnic) on October 3rd. A branch-cutting ceremony marked the opening of the first mile of trail. Fresh cider, squeezed from a 100-year old press loaned by Leon Rice was served. The trail closed for the winter on December 1st, allowing eagles to roost and fish undisturbed.

In 1994 the Committee expects to obtain additional easements from Moore's Crossing Road south to the Merrimack line, plan the trail north from the Route 101/I-192 bridge, place two picnic tables and two benches built by a Boy Scout in the northern area of the one-mile section of trail, install four interpretative signs, and place trash receptacles at both ends of the trail.

In addition, grants will provide funding to plant oak and cedar saplings (\$1,750), lay surface material from Moore's Crossing Road to Overlook Park for increased handicapped accessibility (\$12,000), and to build-

bridges (\$142,000 with a 20% match). The first bridge will be built over the ravine midway between Moore's Crossing Road and the Route 101/I-293 bridge.

Fundraising will continue in 1994, with a goal of \$2,000 for annual trail maintenance, \$3,000 to complete specific projects, and \$50,000 for an endowment fund, the income from which will provide funding for annual care and maintenance. Total cash donations received in 1993 totalled \$5,030.

Tax-deductible contributions can be made to the Bedford Heritage Trail by making checks payable to the Town of Bedford and mailing to Bedford Recreation Department, 24 North Amherst Road, Bedford, NH 03110.

Cutting a branch to the first mile of the Heritage Trail are Malcolm Chase, Chair of the State Advisory Committee; Earl Legacy, Public Service Company which sponsored the opening ceremony; Dick Stonner, Town Council Chair; and Brian Ross, Recreation Director.

RECREATION DEPARTMENT

Brian Ross, Recreation Director

What a year for Bedford! The Bedford Little League All-Stars play their hearts out and make it to the Little League World Series. Bedford hosts the Class L Girls and Boys Semi-Finals and Finals at Sportsmen's Field. Over 150 individuals and local businesses donate financially to Bedford's Heritage Trail project. A handful of residents start the Bedford Playground Project to raise \$50,000 for a community playground. Over 150 coaches donated their time and knowledge to coach soccer, baseball and basketball. Bedford residents have shown time and time again their dedication and support of recreation in the community in a variety of positive ways. As Bedford's Recreation Director, I am proud to see this community spirit of recreation in making Bedford a better place to live for all our citizens.

The Recreation Department tries to support all these wonderful groups and individuals as well as offer a variety of positive activities through out the year. Our summer season was a huge success in 1993 with our highest usage of the Town Pool in a number of years. Average daily attendance for June was 295, July 260, and 186 for August. Bedford's summer camp, Camp Passaconnaway, had another great summer with each week being full to capacity. The Camp will be expanded in 1994 to accommodate more campers. Our Summer Cultural Series had over 1,000 people attend one of our five shows. The Prudential Habs Realtors sponsored this popular program for the Bedford community. Other highlights of the year included the first annual Springfest held on May 8th, in cooperation with the Bedford Newcomers Club, and the opening of one mile of Bedford's Heritage Trail on October 3rd. Bedford's Heritage Trail project is one of the best examples of a community project which has received unbelievable support from 200 residents and businesses in Town.

The Bedford Town Hall was out of commission for a few months, as lead paint was removed from the building ceiling. It is now back in full swing of being used on a daily basis by community groups and residents for a variety of activities from Boy Scout meetings to Ballroom Dancing.

1993 was a super year not only for the Recreation Department, but for the entire Bedford community. I thank all of you for your support, and I am looking forward to continue this spirit of recreation in 1994. "Recreation is no longer simply having fun. Rather it involves the kind of America we have, and want to have, and the kind of people we are, and are likely to become" by Laurance S. Rockefeller. Bedford is a special place in America to live ! Enjoy it !

The Little League erected new welcome signs for visitors to Bedford.

TOWN OF BEDFORD 1994 WARRANT

To the inhabitants of the Town of Bedford in the County of Hillsborough in the State of New Hampshire qualified to vote in Town affairs:

You are hereby notified to meet at the McKelvie School in said Town on Tuesday, March 8, 1994 at 7 o'clock in the forenoon to act on the following Articles numbers 1 and 2. Polls are to close no later than 7:00 PM. Action on the Town Budget articles 3 and 4 will be held on Wednesday, March 9, 1994 at 7:00 PM at the McKelvie School.

ARTICLE 1. To elect necessary Town and School District Officers for the ensuing two, three and six years.

ARTICLE 2. To see how the Town will vote on the following zoning amendments.

ZONING AMENDMENTS PROPOSED BY PLANNING BOARD

AMENDMENT NO. 1 To adopt the revised flood insurance study and revised flood insurance rate maps prepared for the Town of Bedford by the Federal Emergency Management Agency (FEMA), and to amend Article 12. Floodplain Development Ordinance, Introduction, second paragraph by adding: "...Flood Insurance Study for the Town of Bedford, NH Effective: April 16, 1979 and Revised May 2, 1994 together with the associated Flood Insurance Rate Maps dated April 16, 1979 and Revised May 2, 1994 which are hereby declared to be part of this ordinance and are hereby incorporated by reference". This amendment incorporates engineering changes by FEMA to floodplain designations and elevations along McQuade Brook and Pointer Club Brook from Route 101 southerly to the Merrimack town line. The revised maps indicate land areas around Northgate Drive, Southgate Drive, and Forest Drive as within flood-prone areas.]

AMENDMENT NO. 2 To amend Article 12. Floodplain Development Ordinance, Section A. by adding or modifying the following definitions: "**Area of Shallow Flooding**", "**Floodplain Management Regulations**", "**Freeboard**", and "**Recreational Vehicle**". To amend Section D., paragraph 1. by changing the state statute reference to "**RSA 482-A:3**". To amend Section E., paragraph 2. by adding "**and**" after AH and deleting "**and A**". To amend Section E., paragraph 2. by inserting a new sub-section "**d. Recreational vehicles placed on sites within zones A1-A30, AH, and AE ...**", which describes standards for limiting days of placement on a site, vehicle licensing, elevation, and anchoring. Subsequent subsections are to be re-lettered. [This amendment is intended as a series of "housekeeping" measures to conform with federal and state flood regulations. See complete text on file at Town Clerk's Office.]

AMENDMENT NO. 3 To amend Article 10. Off-Street Parking Requirements, Section B., by deleting the number of required parking spaces for particular uses and inserting or adding new requirements as follows: "**3. Accessory Attached Apartment - 1 space per apartment unit.**" "**4. Elderly Housing - 1 parking space per dwelling unit plus 1 per employee of the largest shift.**" "**8. Retail Store or Shopping Center - 1 space for each 250 sq. ft. of gross floor area.**" "**9. Supermarket, Grocery Store, or Convenience Store - 1 space for each 180 sq. ft. of gross floor area.**" "**12. Restaurants - 1 space for each 4 seats.**" "**13. Cocktail Lounges in Restaurants, Bars, and Nightclubs - 1 space for each 2 seats.**" "**26. TND Developments - See Article 7. Section H.**" The parking categories in Section B. shall be re-numbered to reflect the above additions and modifications. [This amendment is intended to increase or decrease parking requirements for various uses based on historical observations of adequacy by the Planning Board.]

AMENDMENT NO. 4 To amend Article 9. U.S. Route 3 Corridor Performance Zoning District, Section A. Authority, by adding the following: "**Pursuant to NH RSA 674:21, II,**

this innovative land use control ordinance shall provide for all approvals, including the granting of conditional or special use permits, by the Planning Board. Any decision made by the Planning Board under this innovative land use control ordinance may be appealed directly to Superior Court in the same manner provided by statute for appeals from the Planning Board, as set forth in RSA 676:5,III and RSA 677:15. A waiver process from particular requirements set forth in Article 9. may be employed by the Planning Board where the applicant demonstrates substantial compliance with the standards set forth in Article 9., Section C. Purpose, paragraphs 1-5." [This amendment is intended to vest authority for administration and appeals of Article 9. in the Planning Board rather than the Zoning Board of Adjustment.]

AMENDMENT NO. 5 To amend Article 9. U.S. Route 3 Corridor Performance Zoning District, Section E. Definitions, by adding a definition for "Caliper". To amend Section H. Minimum Landscape Performance Standards, Section I., 3. Exterior Landscape Area, 4. Interior Landscape Area, J. Screening of Refuse, Material Storage, Loading, & Utility Installations, and Section K. Minimum Landscape Requirements for Signage as follows: Combine all landscape requirements found in various sections of Article 9. into Section H. Revise Section H. 1. Intent, to clarify landscape goals in the PZ zone. Provide amended explanations of the Street Tree area and Front Landscape area. Revise Table of Side and Rear Landscape Options, revise Figure of Landscape Cross-Sections, revise Table of Exterior Landscape Options, and revise criteria for Interior Landscape Area. All sections shall be re-numbered to accommodate the above amendment. [This amendment is intended to clarify the landscaping requirements of the PZ zoning district, to place all landscape specifications in a single section of the ordinance, and to modify the planting width of some shrubs and planting height/total number of trees in a few locations. Complete text is on file at the Town Clerk's Office.]

AMENDMENT NO. 6 To amend Article 4. Use and Dimensional Regulations, Section A., 9. b., by deleting references to the Town Council and inserting "The temporary use of a trailer by a person engaged in adjoining construction work, or for whom a residence is being built, ... may be approved by the Zoning Administrator. The Zoning Administrator shall". In the same paragraph, the word "they" will be deleted and replaced by the words "he/she" and "his/her". [This amendment transfers authority for permitting of temporary construction trailers from the Town Council to the Zoning Administrator in order to reduce the application time for permits.]

AMENDMENT NO. 7 To amend Appendix A. Table of Uses, Section D., Public/Institutional, by adding the following: "Public parks and playgrounds shall be permitted in all zoning districts designated within the Town of Bedford." [This amendment is intended to allow development of not-for-profit parks/playgrounds in neighborhoods throughout the Town.]

AMENDMENT NO. 8 To amend Appendix A. Table of Uses, Section C. Industrial, by deleting footnote 21. and inserting the following: "Excavation operations shall only be permitted in that portion of the PZ zoning district that is bounded by the Merrimack River, the Merrimack town line, the F.E. Everett Turnpike, and Route 101/I-293." [This amendment is intended as a housekeeping measure to reflect the 1993 re-zoning of the Route 3 Corridor to PZ.]

Amendment No. 9 To amend Article 13. Administration and Enforcement, Section B. "Building Permit Procedure", by adding the following sentences as follows: All structures shall be constructed in accordance with the most current versions of the BOCA National Building Code, the BOCA National Fire Protection Code, The National Electrical Code, the BOCA National Plumbing Code, and the BOCA National Mechanical Code that have been adopted by the Town Council. The

Bedford Building Inspector shall periodically prepare an amendment for submission to the Planning Board requesting adoption of revised national codes. The Planning Board shall hold a public hearing on the proposed updates or revisions to the national codes, with public notice as required by RSA 675:7. Such notice shall include information stating where the proposed national code updates or revisions are available for public inspection. Following such hearing, the update or revision shall become final upon approval by the Town Council and recording with the Town Clerk.

[This amendment is intended to allow future year revisions of the BOCA Codes to be adopted by the Town Council after a hearing by the Planning Board, rather than submitting each year's revision for a town-wide ballot vote. The simplified adoption process would streamline building permit procedures and save municipal costs for advertising and printing ballots.]

**BUILDING CODE AMENDMENTS
PROPOSED BY PLANNING BOARD:**

AMENDMENT NO. 10 To adopt the 1993 BOCA Codes and the 1993 National Electrical Codes. (Reference Article 4. Use and Dimensional Regulations, Section A. 7. of the zoning ordinance.) [This amendment is intended to update the national building codes administered by the Bedford Building Inspector.]

THE FULL TEXT of each proposed zoning ordinance and building code amendment is on file and is available for public viewing at the Bedford Town Clerk's Office, 24 North Amherst Road, Bedford, NH during regular business hours.

The following budgetary warrant items are to be discussed at the Budgetary Town Meeting on Wednesday, March 9, 1994 at 7 PM at the McKelvie School.

ARTICLE 3. To see if the Town will vote to raise and appropriate a sum not to exceed two million two hundred thousand dollars (\$2,200,000.00) plus interest earned on invested

funds, for the purpose of constructing a public library, such sum to be raised by the issuance of serial bonds or notes under and in compliance with the Municipal Finance Act (RSA Chapter 33) and to authorize the Town Council to issue and negotiate such bonds or notes and to determine the rate of interest thereon, and to take such other action as may be necessary to effect the issuance, negotiation, sale and delivery of such bonds or notes as shall be in the best interests of the Town of Bedford, and pass any vote relating thereto. This article requires a two-thirds ballot vote.

ARTICLE 4. To see if the Town will vote to raise and appropriate such sums of money as may be necessary to defray Town charges for the ensuing year.

Town General Fund	\$6,307,105
Sewer Fund	450,117
Police Contract Work Fund	118,929
Summer Day Camp Fund	46,725

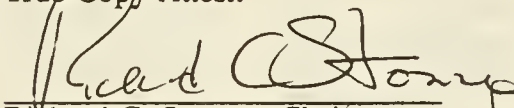

Total Appropriations	\$6,922,876
----------------------	-------------

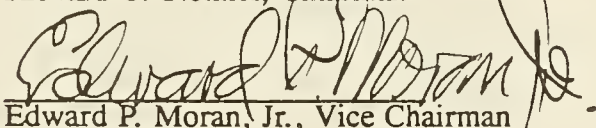

This warrant was approved by the Bedford Town Council on February 9, 1994.

BUDGET OVERVIEW

While presenting a series of challenges and difficult choices to be made, the proposed budget for 1994 continues Bedford's commitment to managing the tax rate. The most significant changes in the funding mix are in the areas of public works and solid waste.

The proposed budget would result in a town tax rate of \$2.59 per \$1,000 assessed value. This represents an increase of 8¢, or 3.2% since 1988; an annual rate of just over one-half of one percent per year for that period.

We are fortunate that growth has continued in Bedford throughout these lean years. This slow, steady growth, combined with careful attention to our revenues and a critical eye on expenditures, has contributed to our ability to manage the town portion of the tax rate. Close attention to cash flow, and timely payment by taxpayers has kept us from borrowing to meet our obligations, a situation becoming critical in other areas where as much as 50% of tax revenues are financed.

Though few new revenue sources were developed in 1993, we were able to realize significant increases in some areas. Actual revenues for the Town Clerk's Office were slightly lower than anticipated, but still \$140,000 more than 1992. By taking a more active approach to collecting overdue taxes, many accounts were cleared up, bringing in an additional \$220,000 in revenue. Building permits also yielded an additional \$20,000 more than anticipated, and interest income nearly an additional \$13,000. We expect revenue growth to continue at a moderate pace, as reflected in our estimates for 1994.

There are two major changes that will affect the Town's budgeting for 1994 and coming years; the closing of the landfill, and the construction of a solid waste transfer station. The closure, an unfunded mandate, is expected to cost more than \$2 million. While we have been putting money aside for the

past few years, the amount of reserves will have to be increased annually if we want to avoid a long term debt for this purpose.

The transfer station, made necessary by the impending closure of the Town's landfill, will be funded largely through tipping fees. This will enable us to bring the landfill to its final shape before closure, as well as aid in our transition to a new way of dealing with our solid waste disposal issues. To further spread the impact of the changes in how we handle solid waste disposal, the transfer station will be phased over the end of 1994 and beginning of 1995.

For 1995, we will need to begin paying disposal fees at another site. Bedford's voluntary recycling is a continuing success story, the revenue and avoided costs of which make the additional \$15,000 we expect to pay for recycling container rental well worthwhile. While the Council has been planning for capping the landfill, working with engineers and state agencies, we expect that this final closure will also be able to be phased over a period of a few years in order to manage the overall impact on the tax rate.

For 1994, we have continued our commitment to planning for capital expenditures, including more than \$125,000 for contributions to capital reserve accounts and road projects. Included in the capital reserve contributions are \$50,000 toward the capping of the landfill, \$50,000 for fire equipment, and \$5,000 for repairs to the Town Offices. We have also increased the amount we plan for road work and construction projects by \$35,000. By refocusing the talented efforts of our Public Works crews on routine and preventive maintenance of infrastructure we already have, we expect to gain economies of scale by contracting out road construction.

Other changes to the budget include funding our participation in the Hilltop Regional Fire District for the whole year, and funding the

Town's performance based pay system at an average increase of two percent, as well as increased costs for worker's compensation and health insurance. We have an employee group that is once again working on innovative and more cost effective approaches to benefits. Regardless of any other changes in health insurance coming down the road, we want to provide good benefits to our employees while building in incentives to keep costs down over the long run.

Some of the other many needs funded in the proposed budget are additional road salt, additional Opticom traffic signal controls for emergency vehicles, hepatitis vaccination for at-risk employees, additional call personnel time and uniforms for filling out the fire shift schedule, staffing at the Memorial Pool, and adding capacity for the summer day camp program. It also adds the Town's participation in the regional library computer cooperative, part-time clerical help for the Fire Department, and the printing of town ordinances and regulations.

There is also a proposed increase in funding for the Unallocated Reserve which guards against unforeseen events, such as storms and other disasters. For the sake of accurate budgeting and better expenditure control, individual departments do not budget for contingencies on their own. Instead, we propose to set aside an amount in the budget for these types of situations, to be used on an as-needed basis.

As the Town has done in the past, we will continue to pursue grants for those projects which are of clear benefit to the community and consistent with our goals. There are grants in this proposed budget, including \$14,000 in matching funds for a Heritage Trail grant, and tree planting funds already matched through donations and in-kind services. We also anticipate receiving about \$700,000 to help offset the cost of the Route 3 sewer interceptor completed early last year.

LIBRARY BOND

At a public hearing held on February 9th, the Town Council voted to put the issue of bonding a new library on the warrant for Town Budgetary Meeting. It must be passed by two-thirds vote. The facility would be built after the Trustees fulfill their promise to raise \$500,000 of the \$2.7 million needed to build and equip the building.

With funds bequested by the late Jenny Beal, the Trustees have retained the firm of Dennis Mires, The Architect, to design a library at the site of the existing one. That location was a gift of the Woodbury family and is restricted for use by a library. Preliminary sketches of the proposed building are on view at the Library, and will be available at the second public hearing on February 23rd, and Budgetary Town Meeting on March 9th.

The Trustees have proposed the facility based on a professional assessment done in 1992. The study indicated renovating the existing facility would exceed the cost of a new one. Part of the problem is the need to bring the building to code if any alterations are done, and the existing electrical and mechanical systems are all seriously below today's building and handicapped standards. The building is utilized above capacity, leaving much of the collection in the moisture filled basement areas. Document storage via electronic mediums is limited because the electrical capacity is already fully utilized and cannot be expanded without major alteration.

If the bond is approved, the building would not be started until 1995 or after the \$500,000 is raised. Bond payments would start no earlier than 1996 depending on the results of the fund raising campaign.

Bedford Police Department

Chief: David C. Bailey

I ended my 1992 annual report with a plea for a sorely needed new safety complex. The vote was well over the two thirds majority needed, and I thank all who attended the meeting. Since then the Town bought the building at 55 Constitution Drive, and we are currently working hard to put everything together for a summertime occupancy. We are all very excited and think the Town will end up with a very good economical solution to a critical building problem. This building should meet our needs for many years.

In 1993 we had three traffic fatalities of which two were pedestrian accidents. All occurred on state highways. One was alcohol related. Although speed did not play a major role in these accidents, it does in many. Speeding is probably the largest volume complaint I receive throughout a year. We will continue to monitor speed aggressively, but please let's all help each other by driving in someone else's neighborhood, as we wish them to drive in ours.

Again, I am happy to report burglaries have dropped, in my opinion, to an incredibly low number. We will take some of the credit, but a lot belongs to citizens for reporting suspicious activity, installing burglar alarms, and other crime prevention measures.

Finally, as I do every year, I wish to thank the employees of the department, other town departments, the Town Manager and the Town Council for their cooperation throughout the year. I would also like to take this opportunity to thank Captain Leo Morency, who retired last fall after twenty three years working for the Bedford Police Department, for his devotion to the job and his dedication to the Town of Bedford. Leo helped many people during those years, and I am grateful.

TOWN FOREST FIRE WARDEN

Forest Warden: Robert A. Fabich, Sr.
Deputy Wardens: Lee Burbank, Earl Isham,
Scott Wiggin

1993 was below average for wildfires reported in Bedford and the state. The largest fire was in Rumney where one of suspicious origin burned 150 acres at a cost of about \$30,000. The fire towers reported 289 fires, burning a total of 136 acres mostly from fires kindled without a permit, unknown causes, and children.

Local fire departments are responsible for suppressing wildfires, and the average .47 acre burn is a tribute to early detection by the public or the fire tower system, and quick response of local fire departments. Please help by requesting and obtaining a fire permit before kindling an open fire.

EMERGENCY MANAGEMENT

Co-Emergency Managers: David Bailey
& Robert Fabich, Sr.

Bedford annually participates in an exercise to test the town's Emergency Management Plan. The 1993 exercise was a simulated state wide earthquake which tested both the New Hampshire Office of Emergency Management and Bedford's plans. These plans were also put to use during the "Blizzard of 93".

Bedford is an EMA participating community which receives matching funds from the State and Federal government. This past year these funds were used to upgrade radio communications in the Emergency Operations Center located within the Public Works facility on Chubbuck Road. A second grant was awarded for \$48,000 to improve emergency preparedness for the Hilltop Fire Mutual Aid District region. In addition, an Emergency Management Reserve Account program has been established for the future purchase of generators.

During 1994, the Bedford Public Safety Complex will become the site for the primary Emergency Operations Center leaving the Chubbuck Road site as an alternate. Bedford then will be one of a few communities meeting this state requirement.

A horse drawn steam engine fire truck participated in the Annual Fireman's Convention held in Bedford.

FIRE DEPARTMENT

Chief: Robert A. Fabich, Sr.

The Fire Department has experienced one of the busiest years in it's history. Requests for service peaked at 2523 calls compared to 2568 in 1992. The fire loss in dollars was significantly lower at \$55,000. Some of this is due to improved training, education and inspection programs.

Scott Wiggin was promoted from the Call force to full-time Operations Captain. Full-time staff remained at 12. Five part-time Firefighter/EMTs were added to handle the Hilltop, and the Call Force remains at 25.

Tanker 2, a 3500 gallon Mack tank truck was placed in service. A used chassis was purchased, and the tank/body was manufactured by Valley Fire Apparatus of Bradford, New Hampshire. This combination, designed by our staff, saved over \$100,000.

After more than a year of negotiations and planning, the Hilltop Fire Mutual Aid District opened August 22nd. This station, located at the entrance of the New Boston Air Force Station, serves a portion of Amherst, Bedford, New Boston and the Station. The concept of regional fire fighting and shared resources with the federal government is the first in the nation, saving each community thousands of dollars each year.

Plans are under way for the new Safety Complex. We have been working to ensure future needs are met. No plans have been made for the existing station.

The department is benefiting from the committees and programs initiated in 1992. These included water supply policy and procedures, safety, infectious control, public education, mutual aid planning, emergency management, regional fire fighting, paramedic program, facilities and more. For 1994 we plan completion of the safety complex, preplans, and an ISO rating.

The department's training program continues with more than 2238 hours achieved. For the 6th year in a row ambulance/rescue personnel were recognized including Firefighter Mark Klose receiving the EMT-of-the-Year Award from Elliot Hospital.

The Bedford Firefighters' Association again sponsored the Norman Richards Memorial Scholarships to Michael Flynn, Scott Vallee, and Stacey Wiggin.

One of the biggest events was the 96th Annual State Firemen's Convention held at the Wayfarer in September. The event brought thousands to town for the three days. None of these programs could have been accomplished without the efforts of all department members.

Overall, the excitement of change and advancement within the department has been favorable and rewarding. As we continue to move forward in an ever changing fire protection environment, the challenges become more difficult. But, the teamwork among department members and other town agencies have made it manageable. I wish to thank the Fire Department members, Firefighter's Association and other town departments and agencies for your contributions.

PUBLIC WORKS DEPARTMENT

Edward S. Kelly, P. E., Director

The Department has four Divisions: Administrative, Highways (traffic and street maintenance), Solid Waste (landfill and recycling), and Wastewater (sanitary sewers). It consists of 20 full-time, 4 part-time, and 1 seasonal employee.

HIGHWAY DIVISION

Paul Belanger, Superintendent

During 1993 (January to March), the Division tended 18 snow/ice storms. In a continued effort to control expenditures, we are using less contract labor and equipment for snow removal. In addition to maintaining the Town streets and roads, the Division is responsible for the winter maintenance of the other public facilities including Schools, Library, Fire Station, Police Station and the Town Offices. The data base for monitoring storms, separately and collectively, is capable of costing labor, equipment, materials, repairs, etc., in an effort to provide reliable service in a cost-effective manner.

A milestone in the Department's winter storm program was recognized at the National Convention of American Public Works Association in Phoenix when our salt-storage facility and procedures were presented with one of five National Awards for Salt Safety.

The road projects for 1993 equaled 39,675 linear feet of streets and roads resurfaced and/or rehabilitated. The majority of the work was accomplished with Town labor and equipment. The continued enhancement of the UNH Road Surface Management System is the most important management tool the Department has for tracking road projects.

Roads worked on for resurfacing, rehabilitation and/or drainage improvements were:

Benning Way	Perry Road
Birchwood Circle	Plummer Road

Forest Drive	Plymouth Street Ext.
Hunter's Road	Sandy Pond Parkway
Lindahl Road	South Hills Drive
Meadowcrest Drive	Tinker Road
Palomino Lane	Veronica Drive

The major projects were the improvements to portions of Meadowcrest Drive and Sandy Pond Parkway.

The UNH Municipal Equipment Maintenance System program has now been in operation for a complete year. The information available has been helpful in the maintenance of the vehicles and equipment and assists in replacement based on the Capital Improvement Plan. The Police Department vehicles are also tracked for preventive maintenance and repairs. A lease-purchase program was established for three International six-wheelers. The Department continues to establish a more evenly spread out replacement program. The CIP is an integral part of this planning.

The expenditure for salt again exceeded the appropriation due mainly to the three-day storm in March forecasted to be the "Storm of the Century". The Division's normal application rate of salt remains at a 4:1 mix of sand and salt. The post-storm analysis of complaints and the tell-tale visual impact of not "painting" the streets "white" indicates that we continue to move closer toward satisfying safety and environmental issues. There continues to be the occasional storms that require a significant use of salt, but this type of storm is infrequent.

LANDFILL DIVISION

The Town Council voted to proceed with the implementation of a Transfer Station to be designed, constructed and in operation by January 1995. The proposed site is adjacent to the present landfill on Chubbuck Road. Effective December 31, 1994, the useful life of the present landfill will be finished for both capacity and permit. The transfer sta-

tion will continue the present practice of trash and recyclables being brought to the landfill, but they will be deposited in containers and transported off-site.

The Recycling Committee remains helpful with our landfill program. Their thoughts, ideas and concerns for the recycling program have produced an estimated 80 percent participation for those using the landfill. Items recycled presently, are: aluminum cans, tin cans, glass, plastic, newspapers, cardboard, clothing, used household oil and metal.

The monitoring of the on-site wells continues with the results within the accepted standards established by EPA.

WASTEWATER DIVISION
Stephen R. Crean, Superintendent

The final phase in the Merrimack River Interceptor was completed in the Spring of 1993. The interceptor now runs from the Manchester line to the Merrimack. Other projects that were completed in 1993 include Faith Christian Church, Martin's House of Cloth, and several single family homes.

The Town has been placed on the final priority list for 20% Grant funding from the State of New Hampshire. Assuming the Grant is approved, the Town would receive \$375,000 for Contracts "3" and "3A". A decision is anticipated in early 1994.

RECYCLING COMMITTEE

Chairpersons: Debby Molano, Jeff Nelson

Entering its fifth year, the Voluntary Recycling Committee has enjoyed seeing the growth and maintenance of a successful program. Recycling is up in all categories, with a majority of Landfill users participating. Landfill workers have noted increased care in sorting and awareness on the part of residents and participating haulers.

The Recycling Center accepts # 1 & 2 plastics; green, brown and clear glass; aluminum cans; tin; tires; motor oil; metal; cardboard; newspapers; magazines; household and auto batteries; and clothing for Goodwill. Many enjoy recycling usable goods in a "swap area" by the metal bin - bring old bikes and "usable" stuff and see how long they last!

The composting site is well established, allowing compliance with state regulations prohibiting landfill disposal of leaves and grass. For composting to work, large brush, plastic bags and other foreign material cannot be mixed with the material. The compost will be used for Landfill capping material.

Newspapers are shredded and used by a local farmer for animal bedding. For this reason, newspapers should be brought in paper bags (for handling) and clear of any foreign materials that are potentially harmful to animals.

While there was no household hazardous waste day in 1993, we hope to have one soon. In the meantime, residents can do much to stop the disposal of toxic materials in the Landfill. Choosing products not harmful to the environment, and using up paint thinners and similar items before disposing of the containers are starts.

The BVRC wrote a report for the Town Council weighing disposal alternatives when the Landfill is closed. We strongly support the Council's decision to convert the current site to a transfer station with recycling. The Committee continues to enjoy its relationships with Landfill personnel, Waste Coordinator, Steve Crean and the Town Council.

Committee members include Steve Crean, Carole Lewis, Michael Lei, Debby Molano, Ann Nelson, Jeff Nelson, Carolyn Richmond, David Salzman, Claire Sills, Janice Souza and Mervyn Taub.

LIBRARY

Frances Wiggin, Director

Trustees: George Fournier, Susanne P. Holstein, Parsons Richmond

It is said that success in the next century will depend on the ability to access, evaluate and use information. Bedford needs a new library to accommodate the services required by users, and increased volume of activity.

The Library is out of space. There is no room for new books or reference updates to keep the collection current. New acquisitions are made only when something is discarded. A 1992 professional assessment recommended a library of 20,000 sq.ft. The present one has 8,000 sq. ft. Seating and desk space is very limited. The entrance nor the interior meet handicap requirements. The electrical system is inadequate. In short, Bedford has outgrown its library.

The Trustees devoted 1993 to planning a new facility. In April, over 70 citizens responded to the request for public help. As a result, three action committees were formed. Since then, these volunteers have dedicated hundreds of hours of work planning and evaluating a new library.

The Bedford Library Foundation was established in June as a non-profit corporation to support continued growth and development. Its eight directors have business, education and professional backgrounds. One interest they share is commitment to public libraries. The objective of president Anthony Frederick and the other directors is to administer donations to the Library Capital Campaign.

Under the leadership of Robert Brooks, the goal of the Capital Campaign is to raise \$500,000 to furnish and equip a new library, thus reducing the tax impact. Joining Brooks are: Walter Gallo, William Brennan; Mark Stebbins; Dr. Stewart Richmond; Maurice Goulet; Barbara Pitsch; Dean Kenney; Mary Lou Wilson; and Jeff Hud-

son. Fund raising events will occur throughout the winter. Citizens who have ideas or experience are invited to join the effort.

On October 19, the Trustees announced the selection of a design team for the proposed library capping a 5-month selection process. Under the leadership of Mary Ann List, the 11-member Building Committee conducted an exhaustive review of 26 architectural candidates, including site tours of libraries designed by the six semi-finalists. Three finalists presented conceptual drawings and were interviewed in September and the Building Committee unanimously recommended the firm of Dennis B. Mires, the Architect, P.A. Founded by Mr. Mires in 1980, the 8-person firm currently has four registered architects with a wide range of experience.

Work on the project is proceeding at weekly meetings between the project architect and the Building Committee. The planning and design phase of the project, funded by a generous behest from the late Ms. Jenny Beal, is expected to be complete in 1994.

The third citizen-action group, the Public Relations Committee, is chaired by William Wickham. In addition to keeping the public informed about the project, this group prepared a visual program about the Library. Local photographer Charles Daugela volunteered his talents with Sue Alexander, Sarah Basbas and Jane Skelly to create this informative program which volunteers began presenting to civic groups in January 1994.

Helping the Library staff meet those needs are the many who volunteer. Working on circulation, reshelving, and assisting with youth programs, these volunteers are critical to the Library. Welcome donations from a number of individuals and civic groups, most notably the V.F.W. and Lions Club, allowed the acquisition of books and items not covered in the operating budget. Thank you!

CEMETARY TRUSTEES

Chairman : Aubrey Robinson

The Trustees report the sale of eleven 4-place lots and four 2-place cemetery lots.

Twenty two burials were conducted in 1993, 13 full burials and 9 cremations. Lots now being sold consist of 4 burial places which can be divided into two lots, A and B, to accommodate those not requiring a full lot. A purchaser must be a resident at the time of sale or prove ancestry buried there. Perpetual care is included with the purchase lot.

The four cemeteries in Bedford are cared for by a superintendent. Inquiries or questions should be directed to one of the Trustees.

Members of the Historic District Commission include (seated) Marilyn Otterson and Shep Melnick (Chairman) Back row l to r: Carolyn Richmond, Madonna Repeta and Laurence Gott. Absent from photo Councilor Jim Dias, Robert Dewey, and Maurice Goulet.

TOWN CLERK/TAX COLLECTOR

Edith P Schmidtchen

As is customary for my office, 1993 was a haven of activity. Auto registrations were on the increase, with most people taking advantage of our one-stop shopping. Tax Collections have also increased, as the Town continues to grow.

At this time I would like to thank everyone who voted for me in March of 1993. Your continued support is greatly appreciated. Always remember our office is here to serve you to the best of our ability.

A reminder: Dog Licenses are due April 30, 1994. Licenses will be available April 1, 1994. Please try to remember this date, as a \$15.00 fine plus \$1.00 per month for every month delinquent will be charged. Please bring current rabies certificate and note the new fee schedule. Don't forget, Cats need to receive rabies vaccinations in 1994.

Male Dog	\$9.00
Female Dog	\$9.00
Neutered Male	\$6.50
Spayed Female	\$6.50
Senior Citizens	\$2.00 (1st dog)

***DON'T FORGET - STATE LAW NOW REQUIRES CATS RECEIVE
RABIES VACCINATIONS. PROTECT YOUR PETS***
